

A message from Surrey Trading Standards:

At a time when community spirit is needed to help the more vulnerable in our society, unscrupulous people are responding by finding fresh ways to defraud people.

We are writing, regarding Coronavirus cons, to residents who we are aware have circumstances that make them vulnerable to scams, explaining how they can access support and safeguard themselves against such frauds. (see attached)

We are also fortunate to have Trading Standards Volunteers who have agreed to make themselves available to assist with supporting these residents.

Useful information is also available online on the [Buckinghamshire Council](#) and [Surrey County Council](#) websites.
