

Safeguarding Adults Review

‘Laura’

Publication Statement

The Surrey Safeguarding Adults Board (SSAB) has today published the findings of a Safeguarding Adult Review (SAR) regarding Laura.

This SAR was commissioned to ensure that there was an independent review of the circumstances surrounding the death of Laura, in order to identify any insights and learning about the ways in which professionals and agencies worked together to safeguard her.

The purpose of a Safeguarding Adult Review is to promote learning and improve practice, not to re-investigate or to apportion blame.

Firstly, I would like to extend my sincere condolences to Laura’s family who have suffered a great loss, and we thank those who knew Laura and contributed to the review

The review considered the following specific issues.

- Information sharing across both Adult and Children’s services, especially when a person has previously experienced domestic abuse.
- Consideration is given that when a partial closure order is served to a person, a multi-agency response is provided to offer support and there are clear risk assessments around this.
- Agencies need to work together when understanding a vulnerable person’s risk of being cuckooed.

As well as highlighting good practice, the review identified important learning and key areas for further improvement. The SSAB accepts the recommendations in full and will work with agencies to share and embed this learning within respective organisations and the wider system.

The SSAB will hold involved agencies to account and seek assurance that the recommendations are implemented and also monitor the impact of changes to ensure that others are protected in the future.
