

Safeguarding Adults Review 'Henry'

Publication Statement

The Surrey Safeguarding Adults Board (SSAB) has today published the findings of a Safeguarding Adult Review (SAR) regarding Henry.

This SAR was commissioned to ensure that there was an independent review of the circumstances surrounding the death of Henry, in order to identify any insights and learning about the ways in which professionals and agencies worked together to safeguard him.

The purpose of a Safeguarding Adult Review is to promote learning and improve practice, not to re-investigate or to apportion blame.

Firstly, I would like to extend my sincere condolences to Henry's family and friends who have suffered a great loss, and we thank those who knew Henry and contributed to the review

The review considered the following specific issues.

- Understanding the criteria for commissioning reviews and how to extract any learning.
- Consideration to be given to the introduction of a Multi agency learning framework.
- The SAB to consider introducing a Multi-agency Risk Management Framework (MARM).

As well as highlighting good practice, the review identified important learning and key areas for further improvement. The SSAB accepts the recommendations in full and will work with agencies to share and embed this learning within respective organisations and the wider system.

The SSAB will hold involved agencies to account and seek assurance that the recommendations are implemented and also monitor the impact of changes to ensure that others are protected in the future.
